UPVC Windows/Doors Website & ERP Highlights PRD

---

1. Introduction

1.1 Purpose

The purpose of this project is to create a **trendy, highly engaging, and SEO-optimized website** for a UPVC window/door company that: - Showcases **product range** (profiles, doors, windows, accessories). - Highlights the **ERP/SaaS software** for fabricators and distributors. - Generates **leads and conversions** (target >15% conversion rate). - Helps users **find fabricators and distributors** easily. - Ensures visibility on **Google search** and **AI-powered platforms**.

1.2 Objectives

- Build a **modern, unique, brand-leading website**.
- Integrate ERP software highlights for traders, distributors, and fabricators.
- Include **locator functionality** for fabricators and distributors.
- Achieve **SEO & AI visibility** to appear for building materials, windows, doors, and related queries.
- Generate high-quality leads with a **conversion-oriented design**.

---

2. Stakeholders

- **Business Owner:** Brand visibility, lead generation, marketing insights.
- **Marketing Team:** SEO, AI visibility, analytics.
- **Distributors/Fabricators:** Locator functionality.
- **Website Users:** Customers, contractors, architects, and partners.
- **Development Team:** Design, implementation, and SEO/AI compliance.

---

3. Key Features

3.1 Homepage & Branding

- Trendy, **unique, modern layout** (premium feel).
- Hero section: showcase **UPVC windows/doors products**, animation/video banner.
- Highlights of **ERP/SaaS software** (features, benefits, pay-per-sft model).
- Quick call-to-action buttons: “Get a Quote”, “Find Fabricator”, “Distributor Login”.

3.2 Product Showcase

- Categories: Windows, Doors, Profiles, Hardware, Accessories.
- High-resolution images & videos.
- Interactive product comparison table.
- Downloadable brochures/PDFs.

3.3 Software Highlights Section

- Overview of ERP/SaaS solution.
- Features for **fabricators & distributors**:
    - Quotation & Production module.
    - SaaS billing per sft.
    - Mobile-friendly & OCR-enabled.
- Screenshots or animated demos.
- CTA: “Get Started / Request Demo”.

3.4 Fabricator & Distributor Locator

- Search by **city, pin code, or region**.
- Map integration (Google Maps).
- Filter by **type (fabricator/distributor)**, product availability, rating.
- Contact details and directions.

3.5 Lead Generation & Conversion

- Contact forms with **minimal fields** for higher conversion.
- “Request a Quote” or “Schedule a Demo” buttons.
- Integrated **chatbot / WhatsApp button** for instant queries.
- CTA prominently displayed on all pages.

3.6 SEO & AI Optimization

- Fully **SEO-optimized content** with keywords: windows, doors, building materials, UPVC profiles.
- Schema markup for products, company, reviews, locations.
- Fast loading & mobile-first design.
- AI-focused content for platforms like **Bing AI, Google Bard, ChatGPT Knowledge Panels**.
- Integration with Google Analytics, Google Search Console, AI content indexing.

3.7 Additional Features

- Testimonials & reviews section.
- Blog/knowledge center: “How-to guides, installation tips, energy-efficient windows”.

- Social media integration.
- Newsletter signup.
- Multi-language support (if targeting regional markets).

---

4. Non-Functional Requirements

- **Performance:** Page load < 3 seconds.
- **Mobile-first & responsive design.**
- **Security:** SSL certificate, GDPR compliance.
- **Scalability:** Should handle traffic surges.
- **UX/UI:** Premium design, easy navigation, trendy animations.
- **Analytics:** Conversion tracking, user behavior monitoring.

---

5. Success Metrics

- Website **conversion rate ≥ 15%**.
- Organic search traffic growth month-on-month.
- High visibility on **Google and AI search platforms** for target keywords.
- Increase in **quote requests and demo requests**.
- Accurate fabricator/distributor searches with user-friendly results.

---

6. Deliverables

- Full website design & development (responsive & mobile-first).
- Product showcase pages with downloadables.
- Software/ERP highlights section with demo animations.
- Fabricator & distributor locator with Google Maps integration.
- Contact & lead generation forms (integrated with CRM).
- SEO setup (meta tags, schema markup, keywords).
- AI indexing optimization (structured content, FAQs, product data).
- Blog/knowledge section for content marketing.
- Analytics integration (Google Analytics, Search Console).

---

7. Future Enhancements (Phase 2)

- AI chat assistant to guide fabricators/distributors/customers.
- E-commerce portal for direct product orders.
- Customer login panel with quotation history.

- Regional promotions & dynamic pricing display.
- VR/AR product visualization (interactive windows/doors).

---

8. Suggested Workflow for Website + ERP Highlight

```
User Visits Website → Sees Homepage → Product Showcase & ERP Highlights →
CTA Click (“Request Quote / Find Fabricator / Demo”) →
Form Submission / Chat → Lead Recorded → Email/CRM Notification →
Fabricator/Distributor Maps & Details Displayed
```

This PRD ensures the website is **trendy, conversion-focused, SEO & AI-ready**, and integrates your ERP software as a **value proposition** for fabricators and distributors.
